MEGAGEAR® 120 TEETH REVERSIBLE RATCHETING COMBINATION WRENCHES

For use in very tight areas. Extremely robust

- Very robust design, exceeding the ANSI and DIN Standard torque ratings by more than 300% without breaking
- Exceeds ANSI life test by five times
- Patented design achieves sweep of only 5 to 7.5 degrees
- Standard 120 teeth wrenches claim a sweep of 3 degrees, but usually actually exceed 10 degrees
- Multi-profile drive fits five different fastener types; 6-point (up to 50% rounded off), square, star drive, spline and 12-point
- Convenient demonstration block available
- 12 piece set: 8-19mm
