demonstration video.

- Push on and pull off feature allows the tool to be used with one hand.
- Works on both metric and SAE fasteners in one tool.
- Unique ratcheting feature allows the user to ratchet around the nut without having to remove the tool from the nut.
- Innovative head design gives the tool unrivaled gripping strength.
- Works on damaged nuts.
- The more leverage exerted on the tool, the tighter the grip on the nut.
- Exceeds the ANSI standard by more than 200%.
- Set included sizes 8-9mm, 10-11mm, 12-13mm, and 14-15mm.
- One tool works on both metric and SAE equivalent
- Sizes: 5/16" x 11/32", 3/8" x 7/16", 15/32" x 1/2" and 9/16" x 19/32"

Last Chance Extractor

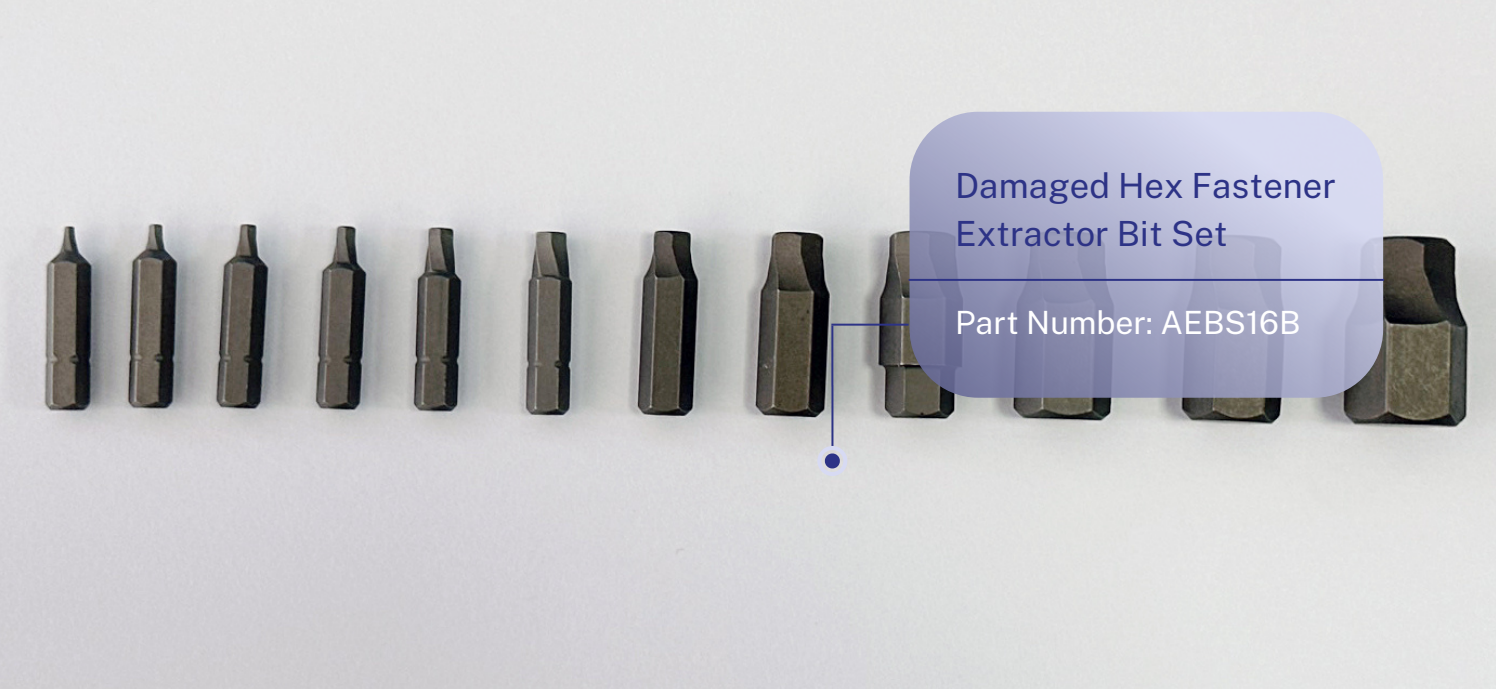

Part Number: SPIN08-17

10 Piece Rounded Fastener Extractor Set

- New patented ‘last chance’ extractor inserts for wrenches and sockets
- The whole range only requires two wrenches (14mm and 19mm). Not necessary to have a separate wrench for each nut size.
- Turns either a standard socket or wrench into one, which can turn a severely damaged fastener.
- Grips all the way around a fastener and allows even 85% rounded off fasteners to be turned. Securely grips many different types of fasteners: six point, twelve point, hex, spline, etc.
- The last chance solution to remove damaged fasteners
- Also suitable for turning fasteners with no damage
- 8-17mm set of last chance extractor inserts for wrenches
- Robust material
- Sits firmly in a wrench, without sliding through
